

DF Style Rod Wiper

A product of MFP Seals.

DF STYLE

DF ROD WIPER

MFP Seals' DF rod wiper is an aggressive wiper designed to retro-fit D Style housings. Designed for use in harsh environments, particularly for Longwall Mining, Agriculture, Off-Highway, Waste Management, and Forestry use.

MFP's DF wiper offers a vented heel to eliminate the possibility of pressure traps between the rod seal and wiper. DF wipers feature a protective flange to shield the housing from contaminants. Easy to install and available in several compounds to meet your application's needs.

**The standard compound for this seal is U2150.
It is also available in U2151 and U4150.**

For compound descriptions and temperature ranges, please refer to pages 26-37.

MFP PART NUMBER

DF-1125U2150

SEAL TYPE DASH # COMPOUND

For non-standard groove sizes, see MFP Seals' HMW (Inch) or MHMW (Metric) Rod Wiper.

Max. Velocity: 4.0 m/s (< 12 ft./s)
