## HYDROWYPE

### A-SERIES, AXC - STYLE-2 & 3 ROD SCRAPER WITH BACKUP WIPER

The Gadjets Hydrowype A-Series, AXC - Style 2 & 3 Rod Scrapers are designed for Medium to Heavy-Duty applications and incorporate a backup wiper to collect any fine contaminant that may get past the Scraper, further ensuring that debris doesn't get into the Hydraulic system.

*The standard compound for the X-PAC® seal is U2151. Other compounds are available. Consult MFP Seals Engineering for more information.*

An A-Series, Style-2 Metallic Scraper. A serpentine spring is used on sizes ≥1.5" I.D.

An A-Series, Style-3 Metallic Scraper. Dual C-springs are used on sizes <1.5" I.D.

### HYDROWYPE PART NUMBER

**AXC-1000X1500-312C/U2151**  
SEAL TYPE    ød1    ØD1    L1    X-PAC® MATERIAL  
CARBON STEEL CAN

\*Unfinished parts are susceptible to oxidation and should not be stored for long periods without appropriate treatment. Parts will be shipped in plastic bags with a light coating of machine oil to prevent corrosion.
